EXHIBITORS, 2020 *(At the time of print)*

As an attendee you will have time in the program to visit the exhibitors virtually both one-on-one or have the opportunity to join a small group as the exhibitor can speak to up to 5 attendees at the same time. Once in the Exhibition you can choose which exhibitors you would like to connect with. You will then request a meeting and you will be put in a queue. The exhibitors will work their way through the queue and it becomes your time you will be automatically connected virtually with that exhibitor. Further updates and information will be posted as we move through this process.
