

## Baycrest Hospital Complex Continuing Care

Baycrest, an Academic Health Sciences Centre fully affiliated with the University of Toronto, needs one or two physicians to join us in our Complex Continuing Care Program, within our subacute hospital setting, working as part of a committed group of physicians caring for patients with complex needs. As an academic centre, there are also exciting opportunities to participate in teaching, quality improvement, and research with support from our Academic Funding Plan.

The successful candidate(s) will hold certification from the College of Family Physicians of Canada and be eligible for a faculty appointment with the University of Toronto. Additional training in Care of the Elderly or Hospital Medicine would be helpful, but not required.

Please contact Dr. Sid Feldman, Baycrest Chief of Family and Community Medicine: [sfeldman@baycrest.org](mailto:sfeldman@baycrest.org) with any questions, or interest in applying for this position.
